BIG BIKE RIDE

Allison And Zeeshan

The Extendicare Team A.K.A The Beast from the Southeast

Eight teams of enthusiastic bike riders hit the streets of Oshawa on a bicycle built for 30. This extraordinary event was part of nine ride dates, used to help fundraise for the Heart and Stroke Foundation. This year alone the foundation has raised over \$100,000 from bike riding enthusiasts throughout the Durham Region, and hope to exceed their goal of \$149,000 with future rides. In addition to the fantastic experience of riding a colossal bike, the big bike program helps to inform communities of the importance of staying heart healthy. Hats off to the eight teams of riders and all those who participated in Oshawa's Big Bike Ride... your pedal power and contributions made the day a complete success!
