Fast Enterprises Hires Former State Tax Director John Vecchiarelli to Support Client Outreach and Interaction

Centennial, Colo., December 6, 2017 – Fast Enterprises, LLC (FAST), a leading provider of software and consulting services to governments, has hired John Vecchiarelli, the former senior director of taxation for the Colorado Department of Revenue, to serve as the company’s user group executive administrator.

“John is an expert in tax administration,” said Martin Rankin, the FAST managing partner. “He has many years of experience serving the state of Colorado and multiple government associations, and his new role with FAST will add an important dimension to the support we provide to our government clients.”

Vecchiarelli, who worked for the Colorado Department of Revenue for more than 30 years, has also served in numerous leadership positions for associations that represent state government agencies, including the Federation of Tax Administrators and the Western States Association of Tax Administrators.

“I am excited to continue to work with others who are passionate about helping government to better serve its citizens and stakeholders,” said Vecchiarelli. “I have seen firsthand how a modern, effective software system can improve an agency’s business processes and the customer experience. I am looking forward to working with FAST user groups and the agencies they represent to identify solutions that further improve their ability to administer critical public programs.”

“I am excited to continue to work with others who are passionate about helping government to better serve its citizens and stakeholders.”

John Vecchiarelli, User Group Executive Administrator

In his role as user group executive administrator, Vecchiarelli will work with FAST clients and user groups to identify best practices and new features, functions, and technology to incorporate into the company’s suite of software products. These products include GenTax® for the administration of government tax and revenue programs, FastUI® for the administration of unemployment insurance tax and benefits programs, and FastDS-VS® for the administration of driver licensing and control and vehicle titling and registration programs.

About Fast Enterprises

FAST software helps government agencies reduce costs, enhance services, improve the efficiency of internal operations, and maximize return on investment. Their software solutions are scalable, thin-client, and platform-independent. The solutions are compatible with service-oriented architecture and run on industry-standard hardware, operating systems, and relational database management systems.

The FAST global workforce of consultants provides on-site services to implement and support software for government agencies. These agencies use FAST software to administer tax, driver license, vehicle registration, and unemployment insurance programs.

The FAST Headquarters and Development Center office is located in Denver, Colorado. Product support and administrative staffs are located worldwide.
